PANEL SPEAKERS

Sarah Anoke  
Ph.D. Candidate, Department of Biostatistics, HSPH

David Swanson, PhD  
Senior Biostatistician, GNS Healthcare

Jane Lindsey, ScD  
Senior Research Scientist, Biostatistics, HSPH

Eric Tchetgen Tchetgen, PhD  
Professor of Biostatistics and Epidemiologic Methods, HSPH

Judi Manola, MSc  
Biostatistician, Dana-Farber Cancer Institute

Beow Yeap, PhD  
Assistant Professor of Medicine, HMS & Biostatistician, MGH

Jerry Schindler, PhD  
Vice President, Late Development Statistics, Merck  
Adjunct Professor of Biostatistics, HSPH

Guo-Cheng Yuan, PhD  
Associate Professor of Biostatistics, HSPH & Associate Professor of Biostatistics and Computational Biology, DFCI

Moderator: Rebecca Betensky, PhD  
Professor of Biostatistics & Chair of Diversity Committee, HSPH

This panel will explore the options in academia, industry, and government available to students choosing to pursue graduate study in biostatistics. Quantitatively inclined students (including, but not limited to, those majoring in math, statistics, computer science, biology, psychology and economics) with an interest in public health are highly encouraged to attend, and we enthusiastically welcome students from underrepresented backgrounds. Pizza and drinks will be provided.

December 1, 2015, 5:30pm – 7:30pm
Harvard T.H. Chan School of Public Health – Kresge G3  
677 Huntington Avenue, Boston, MA

RSVP to jboyle@hsph.harvard.edu (encouraged but not required)
